Composición - Composition:
58%PA (BeCool) - 38%PP - 4%EL

**FIBRA BeCool™
BeCool™ FIBER**

La primera fibra de control de flujo de aire

La tecnología BeCool™, estimula la circulación sanguínea y la oxigenación de la masa muscular reduciendo la aparición del ácido láctico. El objetivo es mitigar las vibraciones musculares y disminuir drásticamente el riesgo de lesión del tejido muscular y desgarro de este, así mismo retrasa la aparición del cansancio y reduce el tiempo de recuperación evitando las temibles agujetas.

The first air flow control fiber

BeCool™ technology, stimulates blood circulation and the oxygenation of the muscle mass by reducing the appearance of lactic acid. The objective is to mitigate muscle vibrations and reduce drastically the risk of muscle lesion and tearing of this, also delays the appearance of fatigue and reduces the recovery time avoiding the dreaded aches.

POLIPROPILENO:

El polipropileno es hiperligero, rápido secado, mantiene la piel cálida y ha sido tratado con acabados muy avanzados antiolores, entre otros factores.

Polypropylene is very light, fast drying, keeps your skin warm and have been treated with anti-odor finishes very advanced, among other factors.

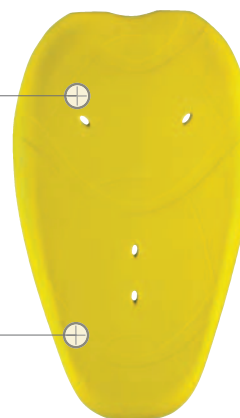

Protección interior

Fabricado en Poliuretano en el exterior y acabado tricot en el interior con el fin de extraer la humedad al exterior. Todas las costuras son termoselladas. Aporta elasticidad, impermeabilidad y transpiración.

Manufactured in polyurethane outside and polyester inside. This fabric allows the extraction of humidity. All seams are thermosealed. It provides elasticity, waterproofing and breathability.

TRES COMPARTIMENTOS - RESISTENTE - CONFORTABLE
 *las herramientas no van incluidas

THREE COMPARTIMENTS - RESISTANT - COMFORTABLE
 * tools are not included
